

Increase Production & Profits with a Genius 5.0 Lite Batch Weighing System from only \$24,995 excl. GST

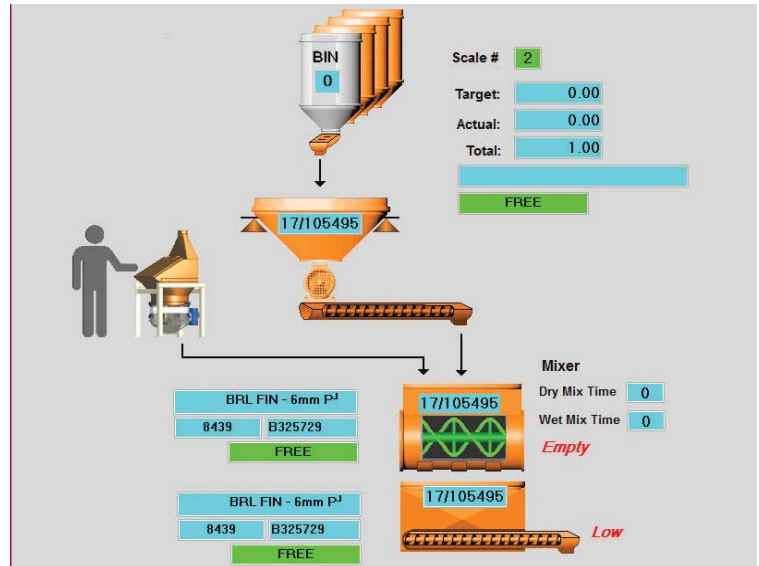

Tired of inaccurate and slow weighing processes... production reporting and not being able to maximize your plants efficiency with your current systems or technology?

What Makes A Genius 5.0 Lite Batching Solution So Powerful And Affordable...

The Genius 5.0 Lite offers a fully automated cost effective solution to meet the demands of production while accommodating budgets for process improvements and future requirements.

The Genius 5.0 are state-of-the-art computerized automated systems developed by our own software engineers, based on over 30 years' experience in the weighing industry

- Plant operation and monitoring
- Repeatable batch weigh accuracy
- Full product traceability
- 24/7 support & built-in diagnostics to minimize downtime
- Comprehensive production reporting with SQL databases
- Alarm and downtime summaries
- Online accessibility
- S88 compliant
- Web server technology
- Standard PC and Allen Bradley PLC hardware
- Modular hardware & software, allows for ease of future expansion
- Seamless interface to ERP or other software packages

"The business has been using Genius systems for over 20 years, and personally I have for over 10 years.

We cannot afford downtime of more than a day. I have always been impressed with the attitude of Gordyn and Palmer towards their client's functionality, in fact at one time deciding to send a technician to country Queensland at 8pm one night, and then having him on site by noon the next day, that's impressive!

The fact that they are not a one person operation and have people always available is a key criterion. We have recently completed the installation and commissioning of Genius 5.0, and it was a hassle free event with no time overhangs putting the business in jeopardy. The software is exceptional as has been the support throughout and post the process.

Again, the software is great, but more important is what sits around and behind it in terms of backup, service and knowledgeable personnel. If you are looking at any type of process automation I could not recommend anyone but Gordyn & Palmer."
