

Want Your Plant To Have Highly Accurate Control... Real Time Data And The Flexibility To Monitor Your Plant Remotely?

The Automated Plant Control System from Gordyn & Palmer is a PLC/SCADA combination, suited to all manufacturing sectors with particular expertise in the following industries:

- Feed and Flour mills
- Mining & Quarries
- Asphalt Plants
- Concrete Plants
- Recycling Plants
- Food Processing
- Waste Treatment
- Water Plants

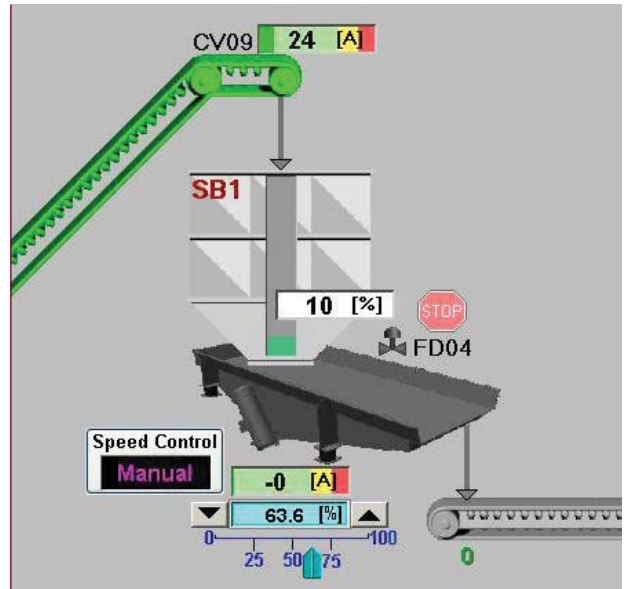

What Makes The Automated Plant Control System More Powerful and Competitive than its competitors?

The Automated Plant Control system will manage all of your plant.

The system allows for future expansion of any plant areas, **so sections can be added on as your operation grows.**

Developed by Gordyn & Palmer software engineers **this** state-of-the-art computerised automated system is both cost and production effective and can be used for:

- Batch weighing & Blend Control
- Contamination Control
- Plant Operation and Monitoring
- Real time plant data via intranet / internet
- 24/7 support and built-in diagnostics to minimize downtime
- Alarm & downtime summaries
- Real time trending of critical devices with history log
- This system can be integrated into a turnkey project including engineering design, switchboard manufacture, installation and commissioning
- Webserver technology & Ethernet Communications
- Online accessibility including cloud reporting

"Gordyn & Palmer have been performing electrical installation and automation work at Geocycle for well over 20 years now.

I have been extremely impressed with their dedication and commitment to customer service and indeed our two businesses have matured and grown together over the years.

Geocycle being a waste fuel blending platform requires specialised expertise in hazardous area electrical and instrumentation and as such Gordyn & Palmer have been able to provide invaluable experience in this area and have been contracted for numerous operational capital projects and other major plant electrical engineering upgrades.

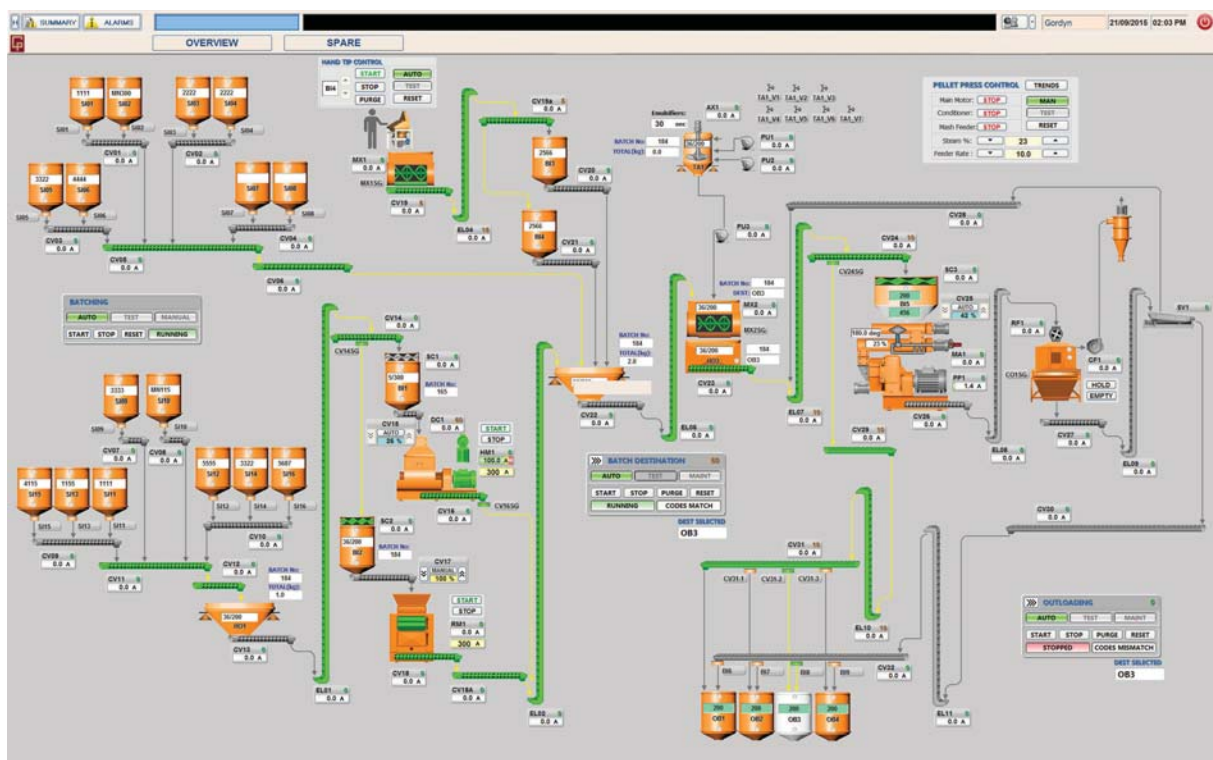

The relationship between Geocycle and Gordyn & Palmer has grown from a customer/service provider into a strong partnership"

Frank Zanetti
Production Manager
Geocycle
